

Engine Data

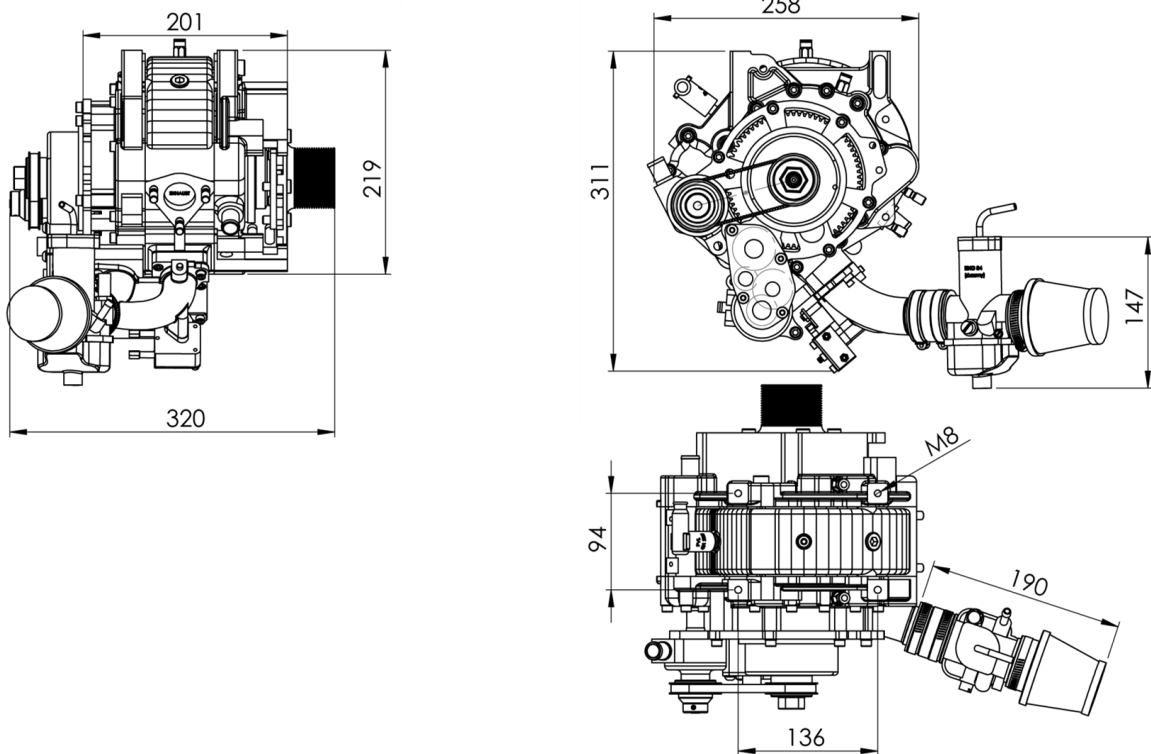

type	Wankel type 4-stroke single rotor rotary engine
capacity	294 ccm
power	26 kW at 6500 rpm
torque	>35 Nm from 4500 rpm
max. rpm	7000 rpm (limited)
ignition	CDI-magneto (optional: battery system)
alternator	50W (optional battery system: 170W)
output	ventilated poly-V belt pulley (Ø59mm, 16 stripes, PJ profile)

Weight

engine - complete with ignition system, carburettor, air filter, fuel pump, water pump, onboard starter, belt pulley	19,2 kg
exhaust system example (280g head pipe, 440g 90° bow, 3120g silencer)	3,8 kg
radiator with hoses and water example (850g radiator 200x350x20mm, 400g hoses + clamps, 1150g water)	2,4 kg
total excluding attachments and reduction drive	25,4 kg
