

LISTE DES EQUIPEMENTS HOMOLOGUES
DE RADIOCOMMUNICATION
ET DE RADIONAVIGATION

EVOLUTION DU FASCICULE

<p>CE DOCUMENT EST REEDITE IL ANNULE ET REMPLACE L'EDITION PRECEDENTE</p>

L'édition 1 avait pour objet de diffuser un supplément à la liste des équipements homologués.

L'édition 2 introduit, dans ce fascicule, la liste complète des équipements homologués.

L'édition 3 introduit, dans ce fascicule, la référence Aviation Civile.

L'édition 4 présente une mise à jour de la liste des équipements homologués.

ANNEXE 1	Liste des équipements homologués	
ANNEXE 2	Supplément à la liste des équipements homologués	

1. OBJET

Le présent fascicule a pour objet de diffuser la liste des équipements radioélectriques approuvés.

2. REFERENCES

Arrêté du 10 juillet 2000 relatif à l'homologation et à l'approbation des matériels radioélectriques des stations d'aéronefs.

3. DOMAINE D'APPLICATION

La présente liste répond à l'article 8 de l'arrêté du 10 juillet 2000 relatif à l'homologation et à l'approbation des matériels radioélectriques des stations d'aéronefs qui précise que :

Art. 8 - Le ministre chargé de l'aviation civile établit une liste des types d'équipements radioélectriques approuvés. Cette liste précise le nom du fabricant, les références du document attestant l'approbation et, s'il y a lieu, la mention « approbation de type spéciale ».

Le présent fascicule remplace le document SFACT/MR intitulé :

« CLASSIFICATION DES MATERIELS HOMOLOGUES DE
RADIOCOMMUNICATION ET DE RADIONAVIGATION »

4. DEFINITIONS

- Approbation.

Reconnaissance d'aptitude d'un équipement à être embarqué sur un aéronef.

- Approbation de type spéciale (ATS).

Approbation donnée à un type d'équipement qui ne répond pas en totalité aux spécifications techniques et qui limite ses conditions d'emploi.

- Désignation commerciale.

Nom commun de l'équipement, définissant généralement une gamme de matériel chez un fabricant.

- Fabricant.

Nom de l'équipementier responsable de la navigabilité de l'équipement. En raison des nombreuses opérations de regroupement de fabricants, il est possible que la liste présentée en annexe 1 conserve la désignation usuelle de l'équipementier.

- Homologation.

Equivalent, au sens du Décret D. 133-19-2 du code de l'aviation civile, à une approbation pour un équipement radioélectrique.

- Part Number (P/N).

Référence du fabricant définissant complètement le produit.

- Référence Aviation Civile.

Référence attribuée par l'autorité à un équipement homologué.

5. PRESENTATION DE LA LISTE

Annexe 1 - Liste des équipements radioélectriques homologués à la date d'édition du fascicule portant l'indice de révision 0, classée par ordre alphabétique de désignation commerciale.

Annexe 2 - Supplément à l'annexe 1, mis à jour à l'occasion des révisions du fascicule.

A chaque réédition du fascicule, le contenu de l'annexe 2 sera intégré à la liste de l'annexe 1.

6. NOTION DE CATEGORIE D'EQUIPEMENT

L'arrêté du 10 juillet 2000 relatif à l'homologation et à l'approbation des matériels radioélectriques des stations d'aéronefs supprime la notion de « Catégorie » d'équipement par l'abrogation à l'article 10 des arrêtés du 30 octobre 1961 portant définition des caractéristiques techniques générales des appareils de radiocommunication destinés à être montés à bord des aéronefs civils et du 20 février 1962 portant définition des caractéristiques techniques générales des appareils de radionavigation destinés à être montés à bord des aéronefs civils.

Les équipements homologués au titre de ces arrêtés, auxquels avait été attribuée une catégorie 1 ou 2, sont inscrits sans distinction dans la liste des types équipements radioélectriques approuvés. Les équipements auxquels avait été attribuée une catégorie 3 portent maintenant la mention « approbation de type spéciale », leurs conditions d'emploi sont alors restreintes.

7. COLONNE REF AC

Cette colonne donne la référence Aviation Civile de l'équipement.

8. COLONNE PART NUMBER

Si aucun Part Number n'est mentionné dans la colonne P/N, tous les Part Number du modèle sont acceptables.

Les caractères X placés dans une référence indiquent que cet élément du P/N n'est pas significatif, il correspond à une évolution mineure de l'équipement, tout caractère de remplacement à cet endroit est acceptable.

Les parenthèses placées dans une référence indiquent également que tout caractère est acceptable dans la zone délimitée.

9. COLONNE NOTA

9.1 Définition

Dans cette colonne peut apparaître un numéro entre parenthèses, il renvoie aux notes du paragraphe 8.2. Ces notes sont destinées à apporter des informations relatives aux particularités de certains équipements, elles ne sont pas à considérer comme exhaustives (seule la notification de l'approbation a valeur de référence).

9.2 Liste des notas

- (1) Equipement sujet à "approbation de type spéciale" (arrêté du 10/7/2000).
- (2) Equipement interdit de montage ou nécessitant une dérogation pour son installation.
- (3) Equipement accepté "nouvelle génération" vis-à-vis de l'entretien (fascicule P-41-15).
- (4) Equipement protégé FM.
- (5) Equipement protégé FM avec application d'un BS ou d'une modification.

10. LISTE SOUS FORME ELECTRONIQUE

En l'attente d'une diffusion à venir sur Internet, le fichier électronique des matériels homologués de radiocommunication et de radionavigation est disponible sur demande par email à l'adresse gsac@gsac.fr.

Les équipements disposant d'un JTSO récent peuvent ne pas apparaître dans la liste diffusée. Le site Internet JAA www.jaa.nl est régulièrement mis à jour et peut permettre de vérifier une homologation (page certification/jar-21_JTSO.html).
